TECHNICAL CIRCULAR

DOC No.: HHI-TEC-0454

Since the Alpha Lube Mark II was introduced as option, the demand of market has been negligible. Therefore, it has been decided to remove the Alpha Lube Mark II as an option for future design specifications.

As a result, the current standard rating dependent lubricator, RD Alpha Lubricator, is only lubricator design offered by designer.

We hope the information will do you a valuable service.

[The end]

Yours sincerely,

S. H. SHIN / Senior Engineer
Head of Engine System Technical Sales Dep't
